PRELIMINARY AMENDMENT

Dear Sir:

Please amend the above-identified application as follows:

In The Claims:

Please add the following new claims:

--86. A method for modulating a hematological response in a mammal, said method comprising administering to said mammal a therapeutically effective amount of a polypeptide or its corresponding antibody, wherein said polypeptide is selected from the group consisting of:

- NO:1;
- a) an isolated polypeptide having an amino acid sequence shown in SEQ ID
  - b) an isolated polypeptide having an amino acid sequence of SEQ ID NO:1 with conservative amino acid substitutions; and
  - c) a fragment of a polypeptide comprising the amino acid sequence of SEQ ID NO:1.
